EWV: Transitioning the Community from reliance to Resilience

**Dependent
Community
(reliance)**

**Independent
Community
(resilience)**

World view defined...

World Vision

- Worldview' is a mindset that takes shape in the thought processes within the mind. These thought processes consist of beliefs, values and perceptions. Ideas rooted in worldview become expressed in predictable behavior patterns.
- Worldview drives behavior; therefore a changed mindset automatically yields a different behavior.

EWV is about ...

World Vision

1. *Discovery of self-identity.*
2. *Development of character based on values.*
3. *Developing vision for a better future as God intended.*
4. *Empowered people who live out their identity and values to realize their new vision.*

Why EWW...

- a. Brings holistic transformation to the society (mental, social, economic, spiritual)
- b. People at the center of their own development.
- c. It builds people's capacity to drive things instead of waiting for somebody else to do.
- d. It uncovered people's potentials and make use of it
- e. It opens new ways of living that previously were locked in.

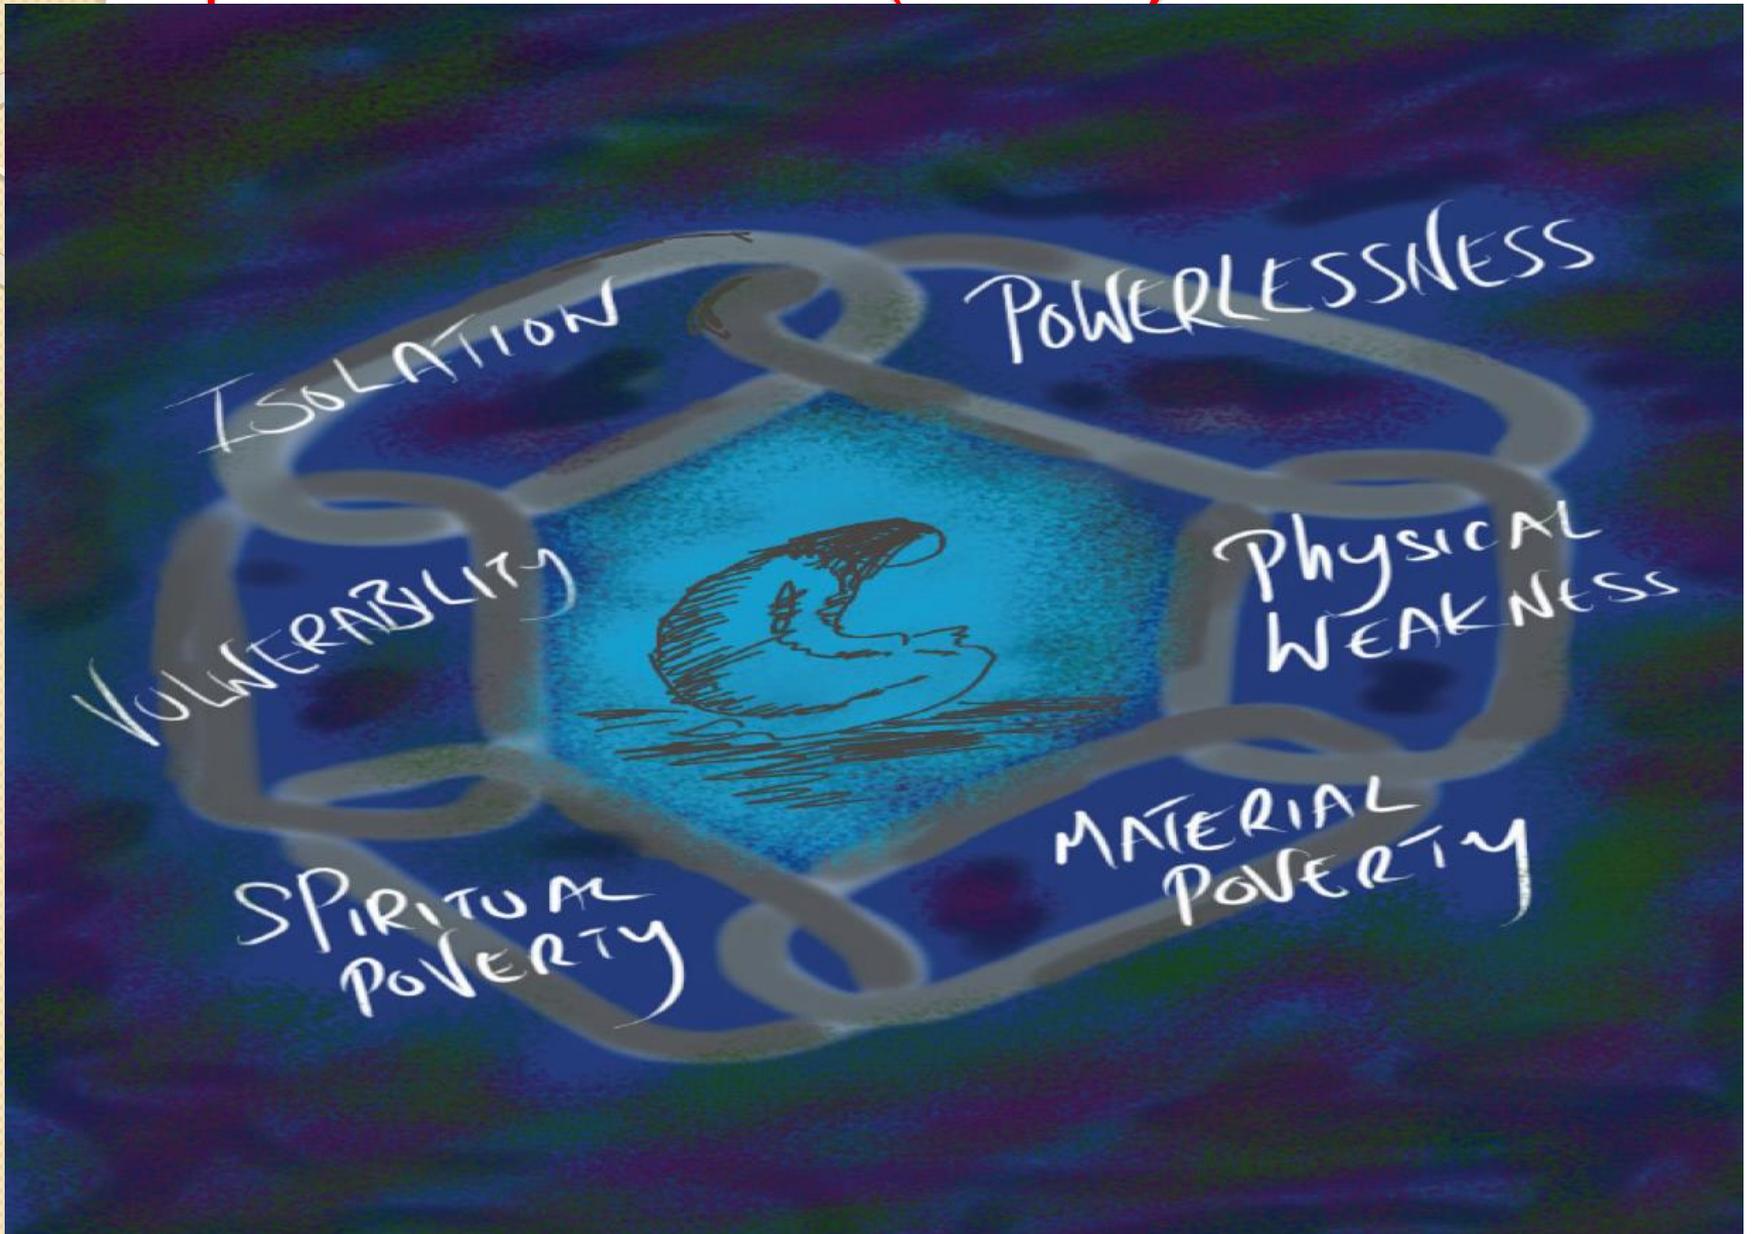

Sometimes the thing that is holding you back...

...is all in your head.

Disempowered communities(reliance)

World Vision

EWV: Transition from reliance to resilience Communities

Reliance

Farming is production for household sustenance

Non Visionary

Fatalistic dependant households

Work in isolation

Resilience

Farming is business &hh nutrition

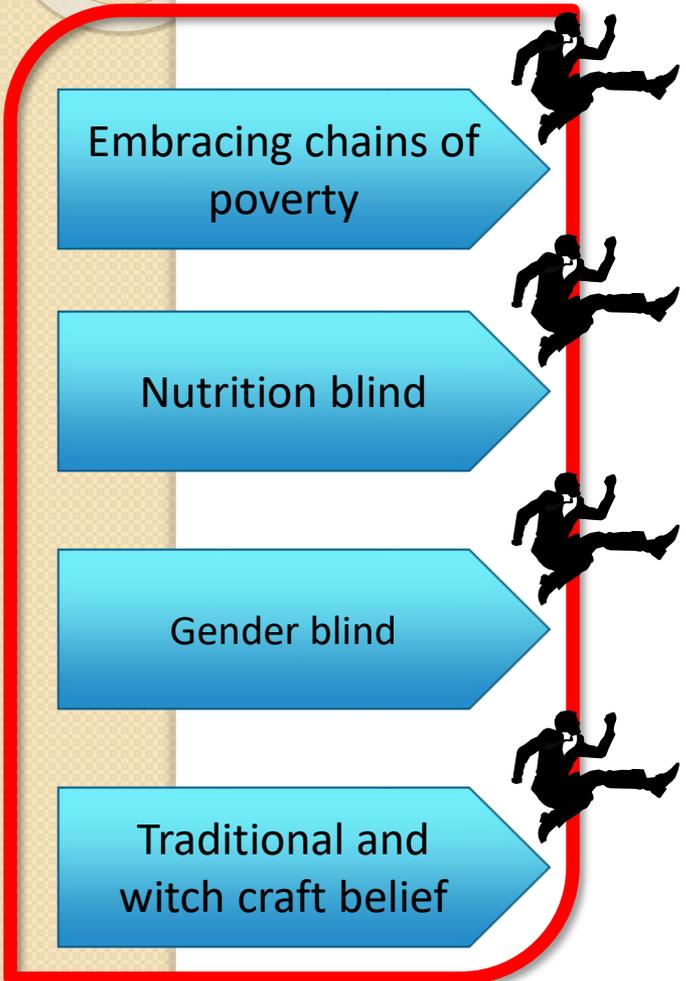

Visionary

Entrepreneurs families

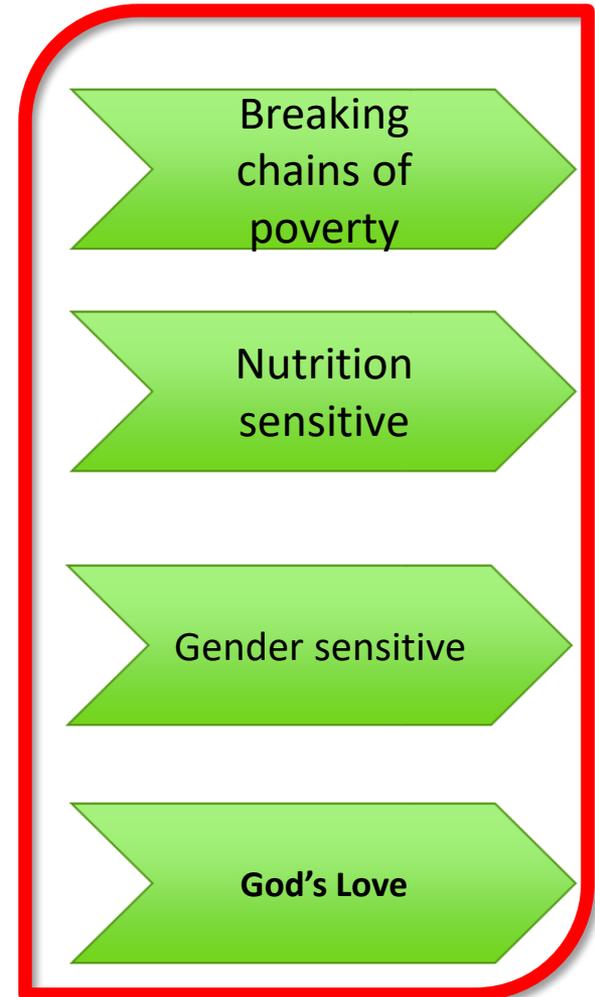

Work together spirit

EWV: Transition from reliance to resilience Communities

Reliance

Resilience

World Vision

Features of the resilient(empowered) community

Hard working spirit

A work together spirit

Self identity

God's Love

Income diversification

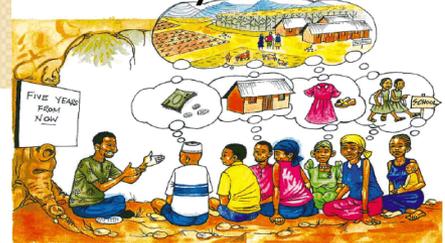

Financial discipline

Nutrition sensitive Commercial farming

Visionary

Hard working spirit...Faith books reference

- Matthew 25:22 A man travelled far and given his savants talents
- 2Thethallonias 3:10 ...if any would not work, neither should he eat.
- Proverb 19:15... and an idle soul shall suffer hunger.
- Proverbs 10:4 A lazy person will always be poor
- Proverbs 22:4 ...Being respective and loyal to God result to richness
- Ezekieli 28:4 Its Wisdom and knowledge that results to richness

Cases of health and nutrition mindset related issues

- ❑ **Food consumption Eggs and Milk.** *“In our [Sukuma and Nyamwezi] culture, you need to understand that mtindi [sour/fermented milk] and Ugali [maize/corn meal] is the main dish, and we define wealth as having many healthy livestock...So when we feed eggs to a child, it is like losing a whole chicken!... Additionally, it is rare for us to slaughter livestock (including chicken) for food, only when they are sick, so that we save them from dying in the bushes” (LVCD EOE,2016)Control.*
- ❑ *.....you only slaughter a chicken when you have an important visitor” [Comparison FGD participants_Various] LVCD EOE 2016.*

Some of the mindset related issues...

- ❑ Some nutritious food taken by the community as inferior meals example “Ugali wa dona”, amaranth etc
- ❑ Some pastoral communities reluctant to eat some nutritious meals such as fish and vegetables
- ❑ Adult prioritized than children
- ❑ Shameful for a men to feed children
- ❑ Shameful for men escorting their wives to clinics
- ❑ Shameful for men get into the kitchen and cook
- ❑ Belief that healthy people are only those with pot belly
- ❑ Malnutrition children linked to be witch craft!
- ❑ The government is there for us and for everything
- ❑ Production for subsistence

ACTIONS:

- ❑ EWV the foundational pillars in WV programming
- ❑ 684 Nutrition groups formed and as the result made nutrition counseling to 21,247 pregnant mothers.
- ❑ Mobilized over 4500 Savings Groups with more than 110,000 members.
- ❑ More than 250 staff exposed to YATTA and trained on EWV. while more than 1500 Community facilitators trained on the same
- ❑ EWV training curriculum developed

World Vision

- ❑ Linked 172,600 small holders farmers to access loans via VFT for the past 5 years(151 bil. disbursed)
- ❑ Financial education done over 30,000 smallholders farmers(Financial discipline and entrepreneurship skills)
- ❑ Development and Launching of the Empowered World View book at the National level.
- ❑ Market connection though LVCD approaches and potential partners such as GAFCO,FCI etc
- ❑ Developed an Integrated Food and Nutrition Security Technical Programme.
- ❑ Development of more than 30 Faith Based Leaders Savings Groups.

Results

- ❑ *% increase in farmers participating in savings groups increased from 16.9%(baseline) to 27.6% Mid.Term Ev. Mwanzo Programme.*
- ❑ *% of beneficiaries consuming Plant proteins increased from 26%(2012) to 73%(2016)-LVCD project Nzega.*
- ❑ *% of beneficiaries consuming animal Proteins increased from 10%(2012) to 34%(2016)-LVCD project Nzega*
- ❑ *Proportion of households with year-round access to sufficient food for the family's needs increased from 19.9%(2012) to 63%(2015).-THRP Same.*

Results...

- ❑ *% of parents or caregivers able to provide well for their children increased from 24.8% (2012) to 63.6%(2015)-THRP Same.*
- ❑ *% of farmers who report improved access to various market-related information increased from 18.7%(2012) to 53.3%(2015)-THRP Same.*
- ❑ *% of Farmers who are participating in profitable chain and organized markets increased from 2.4%(2012) to 22.7%(2015)-THRP Same.*
- ❑ *% of beneficiaries using radio access market information increased from 6% (2012) to 55%(2015))-THRP Same.*
- ❑ *% of beneficiaries using mobile phones to access market information increased from 4%(2012) to 13%(2015))-THRP Same.*

Challenges

- ❑ It is resource heavy- Requires a lot of time and trained personnel
- ❑ External factors that can work against progress made.
- ❑ Management of expectation
- ❑ Most of the practitioners think mindset issues is for them and for us.

Conclusion

- ❑ We are seeing evidence that EwV works to catalyze sustainable development
- ❑ EwV become more effective if is integrated with other interventions
- ❑ Working with faith leaders both Muslim and Christian has proven to fasten effectiveness of the EwV.
- ❑ Intervention targeting the household is more powerful than targeting an individual.

“If Nutrition and development is not engendered than it is endangered”

“We have dry minds and not dry land”
